

# MSSP PARTNER PROGRAM

DELIVER EVEN MORE VALUE WITH SPYCLOUD

## THE MSSP PARTNERSHIP OPPORTUNITY

Your clients look to you for innovative solutions to head off threat actors before they wreak havoc. By partnering with SpyCloud, you will access industry-leading identity-based cyberattack prevention solutions that deepen the trust you have with clients and ensure you stand out in a highly competitive market.

SpyCloud offers software, integrations, and APIs that layer seamlessly into your existing services and workflows – up-leveling your capability to proactively identify, remediate, and prevent identity-based compromise, account takeover (ATO), ransomware, and other targeted attacks across your customer base.

Consider joining our MSSP Program, which is designed to elevate your identity monitoring capabilities, expand your existing services, and create lasting value for both your clients and your SOC team.

**Minimum participation in the SpyCloud MSSP program is \$35,000 USD per annum.**

## ABOUT SPYCLOUD

SpyCloud is on a mission to disrupt the cycle of cybercrime. As the leader in identity threat protection, our solutions thwart cyberattacks that originate from the use of stolen identity data, including account takeover, ransomware, and online fraud, and make it easy for partners to derive maximum value for their clients.

With SpyCloud, you get:

### Real-time, recaptured darknet data

Access breach, malware-exfiltrated, and successfully phished data from sources only our researchers can obtain

### Actionable identity analytics

Instantaneously visualize and understand the stolen data criminals are using now to target your clients

### Effortless integration

Rapidly remediate exposed authentication data – in as little as 15 minutes – within your existing tools to scale your impact without more effort

If you are interested in joining the SpyCloud MSSP program, please email us at [mssp@spycloud.com](mailto:mssp@spycloud.com).

SPYCLOUD MSSP PARTNER PROGRAM
